Consider downloading a translation app or carrying a phrasebook to communicate with locals.\n\n2. **Transportation:** Shanghai has an extensive metro system that is convenient and efficient. Familiarize yourself with the metro map and consider getting a transportation card for easy travel around the city.\n\n3. **Navigating Menus:** In local restaurants, menus may be in Mandarin without English translations. To overcome this, you can use translation apps or look for places with picture menus to easily order food.\n\n4. **Cash vs. Cards:** While major establishments accept credit cards, it's advisable to carry some cash, especially in smaller shops or street markets where card payments may not be accepted.\n\n5. **VPN Access:** Access to some international websites and social media platforms may be restricted in China. Consider using a Virtual Private Network (VPN) to bypass these restrictions and stay connected.\n"
